Hospital Board Holds Busy Session

The regular monthly meeting of the Board of Trustees of the Wainwright Municipal Hospital District No. 17 was held at the Hospital on April 10th, 1943. Trustees present were—Chairman O. Gould, and Mrs. H. Washburn, J. Collette and D. Gardiner.

Minutes of the last regular meeting were read and on motion of Trustee Collette were adopted.—Carried.

A paper from Dr. A. Somerville, M.D., Medical Inspector of Hospitals, dealing with the advisability of building an Auxiliary Cottage to accommodate the aged and incurables who do not require full time attention, was read, and on motion of Trustee Collette the paper was ordered tabled until the May meeting.—Carried.

After a discussion on the water supply, it was moved by Trustee Gardiner that secretary apply to the Department for permission to have a deep soft water well drilled, estimated cost \$750.00.—Carried.

The finance committee reported they had examined the ledger and bank book and found same correct, and on motion of Trustee Collette, the report be accepted.—Carried.

Moved by Mrs. Washburn—that the secretary's bond be renewed.—Carried.

Moved by Mr. Gardiner—that Trustee Mrs. Washburn and secretary have authority to purchase shrubs and perennials for the hospital grounds from Mr. H. Peterson of Irma.—Carried.

Matron's report for the month of March was as follows:—

Patients admitted	70
Classification of Patients Admitted	
Major operations	3
Minor operations	5
Medical	36
Obstetrical	7
Infants Born	7
Deaths	4
Clinicals	8
Total Hospital Days	579

STAFF—Miss Dorothy Paverly, a graduate of Olds School of Agriculture, engaged as cook, to start April 15th, 1943. Miss V. Gidora, hospitalized 8 days with 'flu.

Recruiting Advisors Get Praises for their Work

Civilian Recruiting Advisors Capt. Glass and W. Huntingford are sporting colorful insignia just to hand from the Department of National Defence, the design consisting of a white enamel R on an autumn-tinted maple leaf, on a blue and gold background.

The following letter from Major J. H. Gainer, District Recruiting Officer, Military District No. 13, Calgary, tells the story:

"Some time ago a discussion was entered into regarding the feasibility of creating some distinctive mark for the civilian ladies and gentlemen who have been carrying out our recruiting throughout the Dominion, and National Defence Headquarters agreed to the manufacture of a special badge.

"It is indeed a pleasure to forward herewith one of these badges, which will mark you as Civilian Recruiting Advisor for your territory.

"I am directed by National Defence Headquarters also to express to you their sincere appreciation for the excellent services you have rendered in the best interests of Canada's recruiting problems.

"It would be needless for me to add my own personal appreciation for the splendid co-operation you have always given me, because I am sure you know how much I value our connection."

Local W.I. Has Pleasant Card Party

On Wednesday of last week, fifteen tables were in play at the Separate School hall, on the occasion of a whist party arranged by the local branch of the W.I. for the purpose of adding to their war relief funds.

Under the guidance of Mr. J. Stinert, play went merrily along until the following were announced as winners—Ladies, Mrs. A. Phaff, 1; Miss Sutherland, 2; Gents, Mr. Phaff, 1; E. Nordstrom, 2.

A nice war lunch was served at the close.

How Does Your Label Read?

Moved by Trustee Collette—that Matron arrange with Mr. B. Laird to build a cupboard and screen in the nurses sitting room.—Carried.

Moved by Mr. Collette—that a new Gazette to be used in connection with the X-ray machine be purchased.—Carried.

Moved by Mrs. Washburn—that the Matron have authority to trade in the old lamp in the operating room for a new goose neck lamp.—Carried.

Moved by Mrs. Washburn—that accounts amounting to \$1,547.15 be approved and cheques issued.—Carried.

Moved by Mrs. Washburn—that meeting adjourn, the next meeting to be held May 8th, 1943.

Nation-Wide Drive On Social Disease

OTTAWA—Pensions Minister MacKenzie has announced the co-ordination of four Dominion government health services with provincial authorities throughout Canada, in a nation-wide program for the prevention of venereal disease.

Treatment methods of the medical corps of the armed services will be co-ordinated with civilian facilities in attacking venereal disease from a preventive as well as a treatment standpoint, the minister said.

Assurance of provincial co-operation was given at a meeting of the Dominion council of health last week when provincial deputy health ministers gave formal approval to the program.

Coal Controller Issues Warning

Compelling necessity of co-operation of the consumer public in obtaining supplies of coal for next winter at once in order to avert shortages is now urged by W. J. Taylor, regional coal controller.

"Unless the consumer public co-operate now and help us to make up the slack season which will occur during May and June, the situation next year will be acute if not more so than last," the Controller warns.

Mr. Taylor advises the civilian population to contact coal dealers to see that they place orders now to fill their storage space. This, with available production in cold weather to replenish the stocks would minimize the threat of a possible shortage, he states.

"We must keep these mines operating steadily. If we lose April, May and June, production as we did last year, the suffering will be far greater. The mines cannot produce sufficient coal from July through March to supply needs."

Different secretaries and municipal authorities who applied for emergency coal during the past season have all received information from the Controller, stating the need to avert a similar situation next season.

21,000 Alberta Car Licenses Issued

Despite gasoline rationing and other restrictions, car licenses in Alberta this year do not appear likely to fall far short of the previous year's total, according to information received by the Alberta Motor Association.

For instance a compilation made by the provincial government officials just before the end of March showed that 21,000 passenger car licenses had been issued. At the same date a year ago, the total was 21,000.

A year ago, it is pointed out, there was a big rush to buy licenses in March, due to a number of factors, which were influenced by the prospects of rationing.

This year there was not the same rush in March, as it is believed that the rationing system has become more stabilized.

There also is the belief that many car owners will hold off obtaining their new licenses until Easter. As a result, there is a strong belief on the part of the provincial authorities that the showing by the end of April will prove that there still are many Alberta car owners who intend to operate their cars in 1943. At the same time, it is recognized that the federal restrictions are bound to curtail pleasure driving. But on the other hand, cars will be used more and more for essential purposes.

W.I. and W.M.S. Busy With War Work

The regular monthly meeting of the Wainwright Women's Institute was held at the home of Mrs. W. J. Huntingford with 18 members and 2 visitors present.

Roll call was exchange of plant slips or seeds.

Mrs. Nordstrom reported 3 quilts finished since last meeting. 2 more quilts and several blocks were turned in.

The president, Mrs. Carsell, thanked all those who helped with the party, and a good sum was realized to help carry on war work.

A gift donated by Mrs. Bolduc was won by Mrs. R. Greer. A lovely lunch was served by Mrs. Huntingford and Miss Martin.

Next meeting to be held at the home of Mrs. P. May on May 13th at 2:30 p.m.

Roll call—A tribute to Mother; Paper on Rations by Mrs. W. Brunker; Gift, Mrs. Croteau; Visiting committee for May, Mrs. Carsell and Mrs. Croteau; Hostesses, Mrs. Wilbraham and Mrs. Harley. New members are always welcome.

EVERY KITCHEN A TIN MINE

Uncle Sam will need about 100,000 tons of tin in 1943 to make food cans for soldiers and civilians—as well as for cannon, machine guns, gas-mask canisters, first aid kits and a host of other weapons and medical supplies containing tin.

The Can Manufacturers Institute tells us that nine-tenths of our tin requirements used to come from Malaya, Java, Sumatra and other Far Eastern places now controlled by the Japanese. The United States produces practically no tin at all. They're receiving a small amount from Bolivia—if and when the boats are able to slip by enemy submarines.

So—the shortage of tin goes right down to every housewife's doorstep. Every kitchen is a tin mine. If we are to continue building reserve stocks of canned foods for armed forces, civilian and lend-lease needs; if we are to continue backing up our soldiers with all the necessary war equipment, then it's up to every American woman to see that not one single can is thrown away, but is given to the government.

And remember—for every pound of tin you save you also save 98 to 99 pounds of steel. So help Uncle Sam—and survive!

For every ton of salvaged cans turned in, detinning plants recover more than 98 per cent of good, usable steel scrap. The Can Manufacturers Institute reports. The remaining fraction is tin.

Mr. CHURCHILL "OFF THE RECORD"

"Let me tell you another story about Mr. Churchill—about something which happened only a few weeks ago. By the way, it's never been told before. After a very long meeting—which lasted well into the night—the Prime Minister announced that he was going for a walk in the moonlight. His colleagues were all exhausted, but one of them volunteered to accompany him. And the two set out. During the walk, Mr. Churchill was on top of his form. He discoursed on the beauties of the night, on memories of his own exciting career. Then, suddenly, he spotted the statue of a great Parliamentarian of the last century. 'Ah!' said Mr. Churchill, raising his hat to 'John Bright.' 'Now, if John Bright were alive today, do you know what he'd say to me?' 'Look, I'll give you an impression. To his solitary companion, in the dark deserted street, Mr. Churchill there and then gave a burning display of oratory in the Victorian manner. Then, facing about to John Bright's statue, he said: 'And now, I'll show you what Churchill would say to John Bright.' And he gave another brilliant harangue. I wish I knew what he said. The man who told me the story didn't know. But I'll wager it was grand stuff. And it's the measure of Churchill's greatness that the energy—which, even now, he's got to spare—the spilling over of his brain at any given moment—is more concentrated than the energy most people can manufacture in a full month."

The Dominion Red Cross appeal for \$10,000,000 went over the top by March 31st with several thousand dollars to spare.

ACCOUNTS OPEN IN COUPON BANKING

Pink cheques for sugar, yellow for butter and green for tea and coffee are being written on the new accounts by institutional and quota users of rationed commodities.

To open an account each user obtains a quota reference number from the ration administration and proceeds as usual.

Balance on the month's account may be a credit carryover to the next month, but there are no overdrafts in this kind of banking.

Bank managers and staffs are giving every kind of co-operation, says C. G. McKee, regional superintendent of rationing, Wartime Prices and Trade Board.

Surprise Party For Mayfield Residents

Last Friday night a surprise party was held at the home of Mr. Walter Rathwell in honor of Mr. and Mrs. R. Armstrong and their daughter Buehlah, who are leaving our community shortly.

A large number of friends and neighbors gathered, and the evening was spent in cards, bingo, games and sing-songs, which were greatly enjoyed.

The ladies served a fine lunch, and during recess, Mr. A. F. Kohl made the presentation of suitable tokens to the honorees as a tangible expression of our high esteem and to their sterling qualities as full co-operators of the community spirit.

In a well chosen speech, he extended best wishes for future success and happiness, together with good luck and health as our parting solicitation. The recipients suitably replied.

The party dissolved in the early morning hours with the true conviction that mutual and friendly spirit of neighbors makes life more interesting and worth while.

Wanda Landowska has devoted a good deal of her life to making the world understand that museums of music are as vital and necessary as museums of art. She believes "old music" is frequently more modern than modern music itself. This great artist was born in Warsaw, Poland, of parents who were both linguists of genius and musical amateurs. She graduated as a pianist from the Warsaw Conservatory at the age of 14, even then attracting the notice of great conductors. Since going to New York, in 1941, she has given several radio recital series. She is now being heard on Sunday nights at 8:15 p.m. MDT over station CBK, Watrous, and stations of the western network.

Victory Loan Drive Commences April 26

The Fourth Victory Loan campaign opens on April 26. Alberta's objective has been set at \$33,000,000 as compared with \$20,000,000 in the Victory Loan drive last fall.

Mr. L. H. Baxter is the local chairman for this drive.

The national objective is \$1,100,000,000. This will be offered in two maturities.

One is a 3 1/2 year issue, maturing Nov. 1, 1946, at 100 with interest at 1 1/2 per cent. The short term bonds will not be redeemable before maturity.

Another 15 year issue, maturing May 1, 1957 at 100 bears interest at 3 1/2 per cent. The long term bonds will be redeemable at the option of the government at 100 and accrued interest on or after May 1, 1954 on 60 days notice.

The three per cent bonds will be offered in denominations of \$50, \$100, \$500 and \$1000 as in previous loans. Bonds may be paid for either in cash at the time of application or by instalments plus accrued interest.

Better to lend your spare money than lose your freedom. Buy all the Bonds you can.

Butterfly Shower For Bride-to-Be

On Friday last Miss Marguerite Brunker was hostess for a shower given in honor of Miss Della Cotton, whose marriage takes place this month. Over twenty guests participated in games, contests, etc. A dainty lunch was then served. Those assisting were the Misses Florence Cotton, Isabelle McKenzie and Glenna Brunker.

The rooms were prettily decorated with hand painted butterflies which proved the highlight of the evening. The bride-to-be was instructed to unpin the butterflies and follow the thread attached to each and discover the hidden gifts.

Best wishes for her future happiness accompanied the numerous lovely and useful gifts. The bride-to-be thanked each guest and invited them to visit her when she was settled in her new home.

No Age Limit Set For Meat Rationing

There isn't an age limit in the meat ration announced by the Wartime Prices and Trade Board for May. Infants, children and adults will be allowed the same weekly ration of two pounds, carcass weight.

Nutritionists on the staff of the Prices Board's food administration point out that scraped beef is usually added to an infant's diet at about nine months of age. Other forms of meat are part of a baby's diet at an early age.

Baby hasn't centred all the interest, however. Intensive studies have been made of the nutritional needs of adult workers. On advice of the advisory committee the food administration has been careful to keep the meat ration large enough to look after the needs of any person in any occupation.

A quiet wedding was solemnized at the United Church parsonage on Friday, April 9th, when Miss William Stark Currie of Irma became the bride of Mr. William Edward Inken, also of Irma.

WEDDING BELLS

INKEN—CURRIE

A quiet wedding was solemnized at the United Church parsonage on Friday, April 9th, when Miss William Stark Currie of Irma became the bride of Mr. William Edward Inken, also of Irma.

Rev. A. D. Richard officiated at the ceremony after which the happy couple left for a short honeymoon. On their return they will take up residence on the groom's farm at Irma.

RUDD—TOTH

A quiet wedding was solemnized at St. Paul's church in Regina on Monday, April 12th, with Rev. Lee officiating, when Miss Anne Toth of Regina became the bride of LAC Eldon Rudd of Wainwright.

The young couple will spend their honeymoon in Toronto and other Eastern points before the groom reports back for duty with the R.C.A.F.

Right "early birds" on the golf course were Messrs. Koch and Schlitt last week, when they claim they made the rounds in a "near par (1)". We're wondering are their 1943 fees paid?

M. D. of Wainwright Preparing for Spring Road Work

The Council of the Municipal District of Wainwright No. 392 met in the Council chamber on Thursday, April 8th, 1943.

Present:—Reeve Sutherland, Counsellors Spencer, Fahner, Dixon, Taylor and Archibald. Mr. Strachan arrived later.

Moved by Mr. Spencer that the minutes of the meeting of March 11 to 13 be approved as written.—Carried.

FINANCE:

Moved by Mr. Taylor that the accounts as approved by the Finance Committee be passed for payment, totalling \$26,357.68.

Moved by Mr. Sutherland that Pay Sheets amounting to \$123.40 be passed and ordered paid.—Carried.

Moved by Mr. Sutherland that the monthly Financial Statement as presented by the Secretary be incorporated in the minutes.—Carried.

Moved by Mr. Spencer that the report of the Reeve regarding the business taken up with the Department be accepted.—Carried.

Moved by Mr. Spencer that we advertise for sale in the Edmonton Journal our L. C. Smith typewriter.—Carried.

Moved by Mr. Taylor that the Reeve and Secretary be a delegation to interview the Board of Trustees of the Wainwright School Division in regard to School mill rates for 1943.—Carried.

Moved by Mr. Sutherland that we hereby certify that the employment of the following persons employed by the Municipal District of Wainwright No. 392 is, having regard to the normal practice of the employment, permanent in character: Chas. Wilbraham, Assistant sec-treas.; and Marion J. Long, Stenographer, and that these employees are hereby authorized to sign the Certificate of Permanency.—Carried.

Moved by Mr. Dixon that the Reeve, Deputy Reeve, and Secretary be a committee re, beautifying our office grounds.—Carried.

Moved by Mr. Spencer that our Court of Revision be held on June 10.—Carried.

Moved by Mr. Dixon that we do not pass a consolidation by-law for the year 1943 but that we will consider the compromise of arrears with discounts comparable to consolidation for this year.—Carried.

Moved by Mr. Fahner that the application of Casper E. Ernst under the Soldier's Relief Act for exemption of taxes be approved.—Carried.

Moved by Mr. Archibald that By-law No. 26 concerning a compromise of taxes re. E. E. Sharkey and the SW 34-45-9-4 for \$200 be given first and second reading and be forwarded to the Department for the approval of the Minister.—Carried.

Moved by Mr. Sutherland that considering the benefit an egg grading station would be to our Ratepayers of the Irma district, we agree to lease the municipal office at Irma to the Woodland Dairy for the above purpose at \$5.00 per month; said lease to be subject to sale in sixty days notice.—Carried.

Moved by Mr. Sutherland that By-law No. 27, being a by-law accepting the estimates and setting the mill rate for municipal purposes at twelve mills for the year 1943 be given first reading.—Carried.

Moved by Mr. Taylor that By-law No. 27 be given second reading.—Carried.

Moved by Archibald that By-law No. 27 be given third reading and finally passed and that the Reeve and Secretary are hereby authorized to sign and seal the said by-law in the name of the municipal district.—Carried.

Moved by Mr. Taylor that the Reeve and Secretary make arrangements with the Treasury Branch for a Municipal Credit of \$50,000 deemed necessary for municipal purposes for the year 1943.—Carried.

Moved by Mr. Fahner that we give our janitor, Mr. Wright, \$25 per month and that he be supplied with a list of the duties comprising this position.—Carried.

Moved by Mr. Spencer that the salary of Miss M. J. Long be increased by \$5 per month, the cost of living bonus to remain at a present level. For the motion, Mr. Spencer. Against the motion, Sutherland, Dixon, Taylor, Archibald, Strachan and Fahner.—Lost.

Mr. Sutherland moved an alternate motion to the above, that the full cost of living bonus amounting to \$17 per month be paid to Miss M. Long and that her salary remain at the present level. For the motion, Sutherland, Dixon, Taylor and Strachan. Against, Spencer Archibald and Fahner.—Carried.

Moved by Mr. Taylor that motion No. 105 be rescinded and that the following be substituted therefore: that we pay .55 cents per hour for new men operating our Motor graders for the first month of operation and .55c per hour thereafter. All other operators to be paid .55c per hour.—Carried.

Moved by Mr. Dixon that we put two operators with each of our large Motor graders and one operator on the Motor maintainer.—Carried.

Moved by Mr. Fahner that J. Sutherland be appointed as our operator for the Motor maintainer. That Robert MacGowan and Walter Rae be appointed as our operators for the No. 305 Motor grader, all of the above men to be notified of their appointment.—Carried.

Moved by Mr. Sutherland that the petition received from the M.D. of Merton in regard to opening a new road north of Sections 14 and 15-45-2-4 be referred to the Public Works Committee for consideration.—Carried.

Moved by Mr. Dixon that the following schedule regarding wages for 1943 be approved:—Foreman 60 per hour, Labourer 50 per hour, and one man and two horses .65 per hour, maintaining .85 per completed mile, tractors at the discretion of each Council.—Carried.

Moved by Mr. Dixon that the Secretary set up a record for road diversions in which shall be kept the amounts paid for lands, fences, etc., and any other information pertaining to such diversions.—Carried.

Moved by Mr. Taylor that Council appreciating the necessity for the completion of highway No. 14, do hereby instruct the Secretary to write the Minister of Public Works regarding his intentions in this connection.—Carried.

Moved by Mr. Sutherland that the matter of the contract with Mr. Nicodemus be left with the Public Works Committee to complete. For the motion Sutherland, Spencer, Dixon, Taylor and Fahner, Against, Archibald and Strachan.—Carried.

Moved by Mr. Strachan that the Secretary record in a ledger all leases and agreements for sale together with all particulars.—Carried.

Moved by Mr. Dixon that the following leases be approved:—

J. Sewell W 1/2 22-45-5-4 Cultivation 3 years, Ted Goddard SW 16-45-3-4 Cultivation 3 years, C. L. Rogers SW 12-44-7-4 Cultivation 3 years, W. W. WAINWRIGHT, WEDNESDAY, APRIL 14th, 1943

"MADE IN CANADA" MEANS VICTORY, TOO!

There was good news recently
from overseas for Canadians who
have been buying Victory Bonds and
War Savings Certificates so enthu-
siastically during the past two years.

The Commander of the Canadian
Army, Lieut.-General A. G. L. Mc-
Naughton, declared, "For many
months now there has been an ever-
rising flood (of munitions) to carry
forward our purpose against the en-
emy." He listed the munitions flood
to include warships, transport air
craft, guns and many other weapons
of war and praised the constant and
intense endeavor in this country to
develop new and better weapons
which would bring an advantage to
the Dominion troops over the enemy.

The distinguished head of Canada's
army injects a new spirit of enthu-
siasm into the hearts of Canadian peo-
ple at the approach of the Fourth
Victory Loan when he confirms the
fact that our Bond purchases of yester-
day have been turned into hard
materials of warfare to beat the en-
emy.

On the heels of this statement
from the Canadian general we heard
from Cairo, where a military observ-
er declared that Canadian tools had
played a major part in whipping the
Afrika Korps.

"I did not observe a single work-
shop, which did not contain one im-
portant tool stamped 'made in Can-
ada'," he said.

Let us never forget that above all
else our act in purchasing Bonds is
a blow that the Germans will surely
feel!

WHY THE APATHY?

It is to be deeply regretted that
our local Board of Trade does not re-
ceive the full support to which it is
entitled!

During the past several years the
membership has dwindled in num-
bers to an alarming degree, and the
attendance at the meetings of the
organization has been reduced still
more proportionately. This is certain-
ly not as it should be.

The Board is presumed to be a
body of men banded together for the
advancement of the interest of Wain-
wright and district, by those most
directly concerned and in their own

final interests.

It is surely a very urgent matter
that our business men and farmers
of this territory be made to see that
their small membership fee is very
necessary for the support of such en-
deavors as the Board are carrying on
and, what is more urgent still, that
the presence of ALL members of the
Board at its monthly gatherings is
desirable and necessary, so that ev-
ery shade of opinion on matters
which come before the Board may be
aired and acted upon as found to be
best for all concerned.

The "Let George Do It" attitude
will not do if the proper functions of
the Board are to be carried to suc-
cessful conclusions, which is the on-
ly way in which such an organization
is to prove its full benefit to the
town and district.

The existence of this body has truly
proved its value to the community
in the past, and it is up to everyone
interested to see to it that there is
no let-up in the support demanded by
the officers of the Board.

NOTES

Three rousing cheers! And a Tiger!
Wainwright and District Branch of
the Canadian Red Cross has gone
OVER THE TOP in our recent drive!
This is due in a very large measure
to the wonderful co-operation and
loyalty displayed throughout the
whole district. The canvassers have
remarked on the pleasure it gave
them to be received so warmly, when
making their canvases. We are justly
proud of our district, and we express
once more our heartfelt appreciation
of your generous response to our ap-
peal for your support.

An interesting item of news in con-
nection with the campaign was the
donation of a registered Hereford
heifer to the Calgary Spring Show by
Mr. H. Walker and son, of Grange-
dale, said heifer to be sold for War
Charities. The sum of \$160.00 was re-
alized, of which 50% comes to the
local Branch of the Canadian Red
Cross.

We still have two canvassers to
hear from, so we shall be well over
our quota. Including the \$50.00 from
Mr. Walker which will come to us
from Calgary, and is probably al-
ready in the mail, we have raised
\$2,546.57. Hurrah!

We gratefully acknowledge the
following receipts:
From Canvassers:
Miss M. Hill, Silgo District \$39.00
Mr. D. Rattray, Gerald Dist. 47.00
Gilt Edge Dist., additional 1.00
From:
Wain. Elks Club, dance 29.15
Rose Willow W.I., card party 5.50
Gerald Victory Club 2.50
—H.M.W.

IN CHOOSING A VARIETY OF GRAIN

One of the questions which peren-
nially arises in the mind of the aver-
age farmer is whether or not he is
growing on his farm the variety of
grain which is capable of producing
the highest returns per acre, all
points considered. Luckily today
there are many sources of informa-
tion available where sound advice
can be obtained in solving these prob-
lems. The progressive farmer should
keep in touch with his Agricultural
Representative, the nearest Dominion
Experimental Farm or Agricultural
College, and from these sources ob-
tain assistance in selecting the prop-
er variety for his particular area.
says J. G. C. Fraser, Cereal Division,
Central Experimental Farm, Ottawa.

In areas where leaf or stem rust
is frequently present, better yields
and better quality may be expected
if varieties resistant to the prevailing
rust or rusts are chosen. For in-

stances, in an area where leaf rust of
oats has damaged the crop to such
an extent for years that oats could
not be successfully grown, the use of
a leaf rust resistant variety now
means that this important crop is not
only highly successful but is actually
shipped out as high class seed. In
other areas, stem rust has been over-
come by using a stem rust resistant
variety. Farming is too risky to
take any chances in growing sus-
ceptible varieties when better ones
are now available.

Strength of straw is another im-
portant consideration, reducing the
cost of harvesting and producing bet-
ter quality crops.

The use to which the crop is to be
put is also worth considering. If the
crop is to be fed on the farm, yield is
important and it is of small matter
whether the wheat will make good malt
or bread or the barley make good malt.
In the case of barley, many good
yielding, smooth-awned varieties are
available, and this point is worthy of
consideration.

In these times when production is
so important on Canadian farms, no
farmer should neglect to obtain up-
to-date information on the best of
the new varieties which he should
grow for his particular locality and
need.

PUBLIC NOTICE

THE TOWN OF WAINWRIGHT
INVITES APPLICATIONS
FOR OFFICE OF
TOWN CONSTABLE

Applications, addressed to the
Town of Wainwright and plainly
marked "Application for Office of
Town Constable," the remuneration
for which office is \$100.00 per month
will be received at the office of the
Secretary-Treasurer up to 12 o'clock
noon on Tuesday, April 20th A.D.
1943. The duties, in addition to those
of Town Constable, will be those pre-
scribed from time to time by council.

N. S. KENNY,
Secretary-Treasurer.

The Star does not hold itself responsible
for opinions expressed by correspondents.
All letters must be signed by the writer
of same and should not be longer than 500
words.

RE. HEALTH SCHEME

The Editor,
Dear Sir,

I hear the Wainwright M.D. have
a health scheme that will cost around
\$20,000 more or less for doctors. It
would be nice if we could have every-
thing we wanted, but it is not so
nice when the taxes go up, and they
have gone up quite a lot lately, es-
pecially the school taxes, and if we
get the health scheme, the taxes will
go up still more.

Most of the farmers have to
scratch for the money to pay the
taxes, and there are quite a few that
can't scratch hard enough, so they
get behind with the taxes and the
councillors chase them off the farm,
or the owner becomes a renter. It is
not so nice when a farmer has been
working thirty or forty years to
build up a home and then have it
taken away. Before the war, the
farmer in Eastern Canada had such
high taxes that they could not pay
them, so most of them became ren-
ters. Only a small percentage now
own their farms and homes, and it
looks to me like it is going the same
way here.

Regarding doctors for Irma and
Edgerton: We've got the highway
from Edgerton to Wainwright, and if
one is not very sick it is easy to
drive to Wainwright or Edgerton,
and if one is seriously sick the doc-
tors in a small town can't do much
alone anyway. In Irma they've got
the highway and can go where they
like.

Don't forget that most people have
more faith in a city doctor and hos-
pital (and will go there if they can)
than they have in small town doctors
and hospitals, even if the faith is
not always justified.

It is said that it costs the M.D.
unit over \$6,000 in health help. Well,
what of it? There is nothing wasted
and there is hardly anybody so small
minded that he begrudges a poor and
sick person doctor and hospital care.

But if the ratepayers have to pay
taxes to doctors and hospitals and
then go to the city when they get
sick, in that case they pay twice for
doctors and hospital, and that is a
little too much.

Quite a few doctors are needed in
the war. Why, then, try to tie them
down in a small town by offering
them a good salary.

In the old country it was the
State that gave grants to the doc-
tors and had the upkeep of the hos-
pitals, and not the farmers. It should
be that way here too. It is said that
the farmers are the backbone of the
nation. Why, then, try to break that
backbone with taxes. Why not try
and get along with the doctors and
hospitals we have till after the war.
In the meantime it might be O.K. to
levy one or two mills to get money

with one or two spare rooms for sick
people in Edgerton and maybe in
to build a living house for a doctor
Irma.

After the war when there are more
doctors, I think it will be easy to get
a doctor to stay in the said places
and make their own living. Especial-
ly when there is a good home to be
had. If not, the government should
pay a subsidy to the doctors. Quite
a lot of sickness is caused by ignor-
ance, carelessness and poverty, take
for example tuberculosis, which is
increasing in Alberta. It is mostly
cured by cleanliness and fresh air,
and good food to build up the
strength of the body. If it can be
cured that way it surely can be pre-
vented that way. Prevention is bet-
ter than cure.

Decayed teeth is the cause of quite
a lot of sickness. It would be a good
thing if the councillors could do
something for the school children so
they don't grow up with decayed
teeth. There are quite a few children
that have not got the money to get
their teeth fixed. Brush the teeth
with salt water to prevent pharyn-
gitis as salt hardens the gums and checks
the growth of bacteria.

I think the councillors should try
to keep a dentist in Wainwright so
we don't have to run to Edmonton
every time we get a tooth ache.

The councillors asked for a com-
ment on the Health Scheme by the
ratepayers. Well, I'm trying to ob-
lige them, but maybe I've overdone
it.

G. GREIBROEK.

Canning Sugar Needs Must be in Thursday

Applications for sugar for canning
purposes must be filed by April 15th,
it is stated by the Ottawa Prices and
Trade board. Already, between 6000
and 7000 individual applications have
reached the secretary of the local
rationing board, W. Huntingford.

Townpeople appear to be quite
conservative in their requirements.
The farmer population, however,
have many angles to consider in con-
nection with sugar since there is the
matter of farm help among the fac-
tors to be considered. People are be-
ing urged to put up as much fruit as
possible and the farmer's wife (and
this includes some town housewives)
would like to take advantage of the
wild fruits available but there is no
way of telling what kind of a season
will prevail.

SEA CADET ORDERS

SEA CADET CORPS
R.C.S.C. "EXETER"

Ships Company will parade in the
Corps quarters at the Federal Build-
ing, Tuesdays and Fridays of each
week during the month of April, 1943
at 19:30 hours.

Officers of the Watch for April:
Chief Instructor Ordway, P.O. of the
Watch P.O. Wilbraham 2nd class,
Sentries, Rutherford and Smith.
Quartermaster, Carsell.
Signallers must attain 8 words a
minute Semaphore by the end of
the month.

All other ratings must have Rules
of the Road complete.

Applicants seeking enlistment may
present themselves for the Tender,
to P.O. MacKenzie at any regular
parade night.

C. WILBRAHAM,
Lieut., R.C.S.C. "Exeter"
Executive Officer,
Wainwright Sea Cadet Corps.

FARM NOTES

PRUNING FOR SPECIFIC EFFECTS

There should be little pruning of shelterbelt trees, other than cutting out dead or broken branches, because maximum foliage and branching from top to bottom are desired to give maximum wind-breaking qualities, and to provide maximum ground cover, says John Walker, Superintendent, Dominion Forestry Station, Indian Head, Sask.

In order to increase the efficiency of osageana in reducing surface wind velocity, it should occasionally be cut back to about four or five feet in height. This treatment will cause increased branching near the ground.

When there is crowding and lack of light as in a well established shelterbelt, the lower branches seldom become strong; in other words the lack of light and other conditions unfavorable for growth, cause what might be called "self pruning". This phenomenon is more noticeable in some trees than in others—it is especially apparent on most pines and larches.

Crowding of trees as in a shelterbelt also causes height growth, or the development of trunks and branches upwards to seek light. This condition is also desirable in a shelterbelt where height as well as density is advantageous.

In mixed shelterbelts, containing both evergreen and broadleaf trees, injury to leader growths of ever-

greens should not be permitted by extending branches of broadleaf trees necessary.

As a regular and definite shelterbelt management practice, surplus, short-lived, and weak trees should be removed entirely. By doing this the more vigorous, longer-lived type will benefit by additional space. This step however, is not necessary until after the shelterbelt has become well established.

It is folly to allow the trees to die in a shelterbelt because of overcrowding. The better plan is to cut out a sufficient number of the shorter-lived trees as soon as the wood obtained from them will make a significant contribution towards fuel and other lumber needs.

World of Wheat

H. G. L. Strange,
Director, Research Department,
Searle Grain Company, Ltd.

VEGETABLES WILL BE BADLY NEEDED

Many persons are becoming seriously alarmed about a probable grave shortage of vegetables. It is the intention of the Government of the United States and of Canada to dehydrate vast quantities of vegetables, and to ship them overseas to

the members of the Armed Forces, to Russia and to the people of Britain.

It is calculated that in consequence vegetables will be so short this coming summer that every person, who can do so is being urged in the United States and Canada to grow more vegetables. Many farmers will no doubt wish to join in this most worthy effort.

With the present shortage of farm labour, keeping a large vegetable garden free from weeds will not be easy. When I was farming I hit upon a time-saving plan of sowing vegetables on a piece of summerfallow out in the fields in long single rows, leaving such a width between the rows so that any farm implement in ordinary use, a section of a harrow or a disc, could be dragged between the rows every day or so. In this way most of the weeds can be killed quickly by machine power. This only leaves the weeds between the vegetable plants in the rows to be pulled by hand.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The Argentine corn harvest is underway, with yields very light as a result of the long drought—Wheat acreage in the major exporting countries is expected to be reduced 3 to 4 percent this year—There is a severe bread shortage in North Africa, as a result of the small wheat crop last year, and of German confiscation before the Allied occupation.

Spring ploughing and seeding in

the U.K. is well underway and it is expected that wheat acreage will be increased to about 3,300,000 acres—The export subsidy on U.S. wheat to some South American countries has been increased to 30 cents per bushel—Canada has increased quotas on a number of essential farm machine supplies.

Household Hints

GET MAXIMUM SERVINGS FROM RATION COUPONS

War conditions have made it necessary to cut normal civilian consumption of processed foods by fifty-seven per cent, so it's essential for every homemaker to be a shrewd and careful food buyer, and to get the most nutritional value out of every ration point.

The amount and quality of the food that is actually put on the plate is what really determines the nutritional value of each coupon investment. As you read over the government table of point values for processed foods, you may not have noticed this important point: quick-frozen foods have a substantial point advantage on a per serving basis. For example, twelve ounces of quick-frozen peas cost ten coupons and give four average servings of three ounces on the plates at the family dinner table; while a twenty-ounce (number two) size can of peas costs 16 points and gives on the average only four servings of three ounces each. The eight ounces of liquid included in the weight of the average can costs six extra ration points.

The reason for the point advantage for quick-frozen fruits and vegetables is due to the fact that in proportion to the normal consumption of quick-frozen and canned foods, more quick-frozen foods are available than canned foods; and ration values are based on availability.

Green Peas

Drop 1 box (12 ounces) quick-frozen peas (frozen) into ½ cup briskly boiling salted water, bring again to a boil, and boil 5 to 7 minutes, or until just tender. Drain if necessary. Serves 4. (Use any liquid left after cooking in sauces, soups, or for other suitable dishes.)

Serving suggestions: Quick-frozen peas may be served with butter or cream, or in combination with other vegetables, such as carrots or small white onions; or they may be used for cream soups, served in creamed dishes with chicken, shrimp, eggs, or mushrooms, or combined with meats in salads. These peas may be served in patty shells or toast cases.

Lima Beans

Drop 1 package (12 oz.) quick-frozen lima beans into 2 cups briskly boiling salted water, bring them again to a boil and boil 16 to 18 minutes or until just tender. Drain if necessary. Season with salt, pepper, and butter. Serves 4. Use any liquid left after cooking in sauces, soups or other suitable dishes. Quick-frozen lima beans may be served with butter or cream, combined with corn for succotash, garnished with broiled bacon or ham, combined with other vegetables or meat in salads, or they may be used for cream soups or scalloped dishes combined with other vegetables. Gives four servings at a cost of 2½ ration points each.

NOURISHING HURRY-UP MEAL SOLVES PROBLEM OF FEEDING LATE-SHIFT WAR WORKERS

The overtime that's essential to all out war production inevitably means that the home front kitchen must be prepared to serve meals literally at all hours. Many men and women working in war industries may have their main meal at the plant and want only a light meal or supper on their return home. Man-sized sandwiches, a nourishing beverage and an assortment of fruit make a good menu choice for light meals. Cafe au lait, made of hot milk combined with decaffeinated coffee is a heartening drink that late-comers can enjoy without losing sleep later on. If you don't expect to be awake to make the beverage, be sure to leave directions to brew the decaffeinated coffee slightly longer to bring out its full, rich coffee flavor if it is made in a percolator, and remind your late comers to heat the milk without letting it boil.

Don't make the sandwiches too dainty, for your workers will be hungry. But make them so they will be easy to handle. Butter the bread way to the edges and corners, and have the butter soft enough so that it spreads easily. Be sure to dry lettuce for sandwiches carefully in a towel and make sandwiches at the last minute so that they won't be soggy.

CAFE AU LAIT (Coffee with Milk)

Use 1½ heaping tablespoons regular grind, decaffeinated coffee to every cup (1½ pint) water. Make by boiled or percolated method. (If percolated, "perk" 15 to 20 minutes slowly and gently, or longer than ordin-

ary coffee.) Have ready a pot of hot milk. When serving, pour milk and coffee together into cup in equal amounts.

TASTY HEALTH-BITS

No matter how many foods are added to our rationed list, it will be a long time before the citizens of this country will be content to forego those tasty sherbets, fruit cups, appetizers and desserts. We have always had them and we shall search for new ones to take the place of those we cannot now enjoy.

Oranges have long been relied upon in these dishes and with the scarcity of canned goods by government regulation, housewives are turning to them more than ever. They're the year 'round fruit always available for these healthful courses. They provide the perfect base for either sherbets, fruit cups, appetizers or desserts.

Here are two recipes that take advantage of the juice of the orange. Recipes we still can use. Honey takes the place of sugar. Eggs and nuts furnish protein instead of meat. Lemons and oranges supply those needed vitamins and that desired flavor. Try them and see for yourself.

Orange Honey Tapioca

1/3 cup quick-cooking tapioca
½ cup honey
¼ teaspoon salt
½ cup water
2 eggs

1½ cups orange juice
1 tablespoon lemon juice
1 teaspoon grated orange peel
¼ cup finely chopped walnuts
Combine tapioca, honey, salt, and water in double boiler. Cook over rapidly boiling water 5 minutes, stirring frequently. Beat egg yolks until thick and lemon colored. Add fruit juices and grated peel. Add to hot tapioca; continue cooking about 3 minutes, stirring frequently. Cool. Fold in stiffly beaten egg whites and nuts. Pour into individual dessert glasses or large serving dish and chill. Serves 8.

Orange Honey Sherbet

3 cups orange juice
6 tablespoons lemon juice
1 cup honey
2 egg whites
Grated peel

Mix the orange juice, lemon juice and honey and peel. Put into freezing tray. When firm remove to chilled bowl and beat. Fold in stiffly beaten egg whites. Return to freezing tray and freeze until firm.

Lemon French Dressing (Makes 1 cup)

½ cup lemon juice
½ cup salad oil
1 teaspoon each of salt and paprika
2 tablespoons sugar or honey
Shake well before serving. Add ½ teaspoon celery seed and clove of garlic, if desired.

Additions

Sweet French Dressing (for fruit salads): Add 1 tablespoon each of finely cut blanched almonds, water-cress, and cherries.
 Roquefort Dressing (for greens): Add ¼ cup nippy cheese, crumbled.
 Lorenzo Dressing (for vegetable or meat salads): Add 2 tablespoons of chopped watercress and 2 teaspoons chili sauce.

50 years a favorite for light-textured, delicious, tasty bread

7 OUT OF 8 CANADIAN WOMEN WHO USE DRY YEAST USE ROYAL!

The recent thirty-seventh annual convention of the Ontario Horticultural Association, held in Toronto, emphasized as a principal theme the necessity for the promotion of Victory Gardens in 1943. This message was particularly directed at Canadian citizens living in towns and cities many of whom, up to the present time, have been content to buy their requirements of vegetables. There have always been, it is admitted, those city dwellers who grow their own vegetables in their own gardens more as a form of hobby than for any other reason. These, the O.H.A. feels, are very much in the minority, however. Many, many more either have only flower gardens or make no use whatever of their backyards.

The convention pointed out that it was a patriotic gesture when a city dweller planted a vegetable garden, for by so doing, he was co-operating in the saving of certain vegetables which may be scarce this year, because of manpower and transportation problems affecting commercial vegetable growers, and because of large exports overseas. These vegetables, says the Association, are: potatoes, tomatoes, carrots, cabbage, onions, beans, green peas and sweet corn. Therefore, if any Canadian citizen wants to make sure that he will get a sufficient supply of these, he would do well to plant his own in his own garden plot.

Lettuce, spinach and Swiss chard were listed particularly as being rich in essential vitamins by the Ontario Horticultural Association and therefore excellent choices for Victory garden vegetables. If sufficient land is available for planting, it was suggested that vegetables such as cucumbers, radish, beets, Hubbard and Marrow squash would add to the variety and usefulness of the garden. The convention stressed the immediate need for more Victory vegetable gardens in every Canadian pointed out, can be secured by citizens in each province from their own provincial Department of Agriculture.

Vegetables produced by urban dwellers in their spare time, says the for home use, and will moreover, release valuable man hours for other war purposes.

PLANNING FOR CANNING

The canning of fruits for home consumption is definitely a "must" in 1943 as we told you in an earlier item. This year the wise housewife will find that a well-filled fruit cellar will be a God-send in the days swift approaching when nary a can of fruit will be found on the shelves of her neighborhood grocery.

The query of many women who are planning to can, is "How can I estimate the amount of sugar I'll need?" A large percentage of these ladies are rank amateurs as far as canning is concerned and we can easily see their difficulty. The problem can be solved in two different ways. Mrs. Housewife can choose whichever method she likes.

First of all—what are your weekly purchases of canned fruits at the present time? Two tins of commercially canned fruits are the equivalent of one quart of home canned fruit. The greatest possible use of available fresh fruits must be made this year, so only count on using canned fruits six months of the year. If your weekly consumption amounts to two tins a week for your family, you could use one quart of home canned fruits a week, or a total of twenty-six quarts in six months. On the basis of one-half pound of sugar for each quart of fruit, it is quite simple to arrive at the amount of your sugar requirements.

The second method referred to is—this applies only if you have been in the habit of canning every year—to count the number of quart sealers you have on hand, which you used last year. If this number aggregates a quantity of fruit over and above the six month period mentioned, deduct sufficient sealers to bring it down to the proper level. It is then quite easy to arrive at the quantity of sugar you will need. Simple isn't it?

Manufacturers are increasing considerably their output of quart sealers this year. New metal rings will also be available to replace worn ones on jars you may have on hand. Both jars and sealers will be on the market in time for the canning season, but make certain whether your old jars can be used before buying new ones.

The Timely Help of Convenient Service

Nothing is more irksome than to be held-up or delayed in a busy season. Seeding, haying, or harvesting are jobs that a man wants to keep at and get done as soon as possible.

Provide Now for Future Buying

Some day you will be able to make those improvements you are planning, buy new household appliances, and get the latest and best in equipment. In the meantime build up your capital by buying Victory Bonds and War Savings Certificates — it's the best way to help your country and help yourself.

The timely help of convenient service is a mighty important factor in cutting down lost time when spare parts or machine service is required. In these days when farmers are being called upon to do more with less help it means a great deal to be able to telephone or call upon a local dealer and get what is wanted quickly and surely.

Established and organized to meet this ever-present need of agriculture for quick service contact, the Massey-Harris organization of branches, distributing centres, and local dealers has been geared to wartime needs. For complete machine overhauls and for prompt parts service, get in touch with your local Massey-Harris dealer.

A COUNTRY EDITOR SEES Ottawa

WRITTEN SPECIALLY FOR THE WEEKLY NEWSPAPERS OF CANADA BY JIM GREENGLAY, Editor of the SUN, SWIFT CURRENT, SASKATCHEWAN

INTERVIEW WITH CHAIRMAN

I was at ease just a second after being ushered into his office, Donald Gordon, Chairman of the Wartime Prices and Trade Board at 41 years of age, a big, dark man, wearing heavy glasses but with a twinkle in his eyes and a soft Scotch accent in his speech kinda dominates the room, the big piles of papers and documents on his desk, and you like him right away.

I thought in this last article, you'd like to know something about the man who pulls the strings that juggle your living these days. But he just flew in from Vancouver, was busier than heck and said, after a little plain gossip, "Fire ahead, ask me questions." So I did. I had a few things in my mind that I know you have had didn't want to talk about himself. He'd answered, too. So take his answers not mine.

"What, in a nutshell, are the benefits to citizens in general from the Wartime Prices and Trade Board?" I asked, and he replied, I made a mental note, "The savings to consumers of the country can roughly be estimated at \$350,000,000, and to the taxpayers as a whole a similar amount in the costs of the war to date. That's cash, but there is a much greater saving in human terms for if inflation were to rear its ugly head, money could not measure the human misery, to say nothing of the effectiveness of our part in the United Nations' war against Hitler and the Japs."

Co-operation in Switch From Peace to War

To my questions if disadvantages had dropped up, he admitted some had, but they were inherent in the switch from a peacetime to wartime economy, and none that cannot be worked out with the co-operation of primary producers, industry and consumers.

Maybe I tried to stymie him when I asked if controls, such as price ceilings, would stay after the war, permanent or temporary. "That," he said, "will be a matter of government policy, and in the final analysis for the people themselves." I wanted elaboration. Supposing the war lasts two or three years more?

"Insofar as price control is concerned, it is the creature of government, but it will also depend, largely upon the future form of the war itself and how Canada can best fit in to an effective part in the offensive. If, for instance, parts of conquered Europe should be opened up, we would need to feed starving millions. That might be one thing. If it's tools for an offensive, that's another matter."

4 tsp. Magic 1 tsp. lard
Baking Powder 1/2 cup cold milk,
1/4 tsp. salt or half-milk and
half water

Sift flour, baking powder and salt. Cut in the chilled shortening. Now add the chilled liquid to make soft dough. Toss dough on to a floured board and do not handle more than is necessary. Pat out with the hand or roll out lightly. Cut out with a floured biscuit cutter. Bake on a greased sheet in a hot oven, 450° F., 12 to 15 minutes.

Made in Canada

ter. We can only take such action as may be justified by the day-to-day developments. It's obvious that all of us must be ready to give up much of what we have been used to, and even in measure, if we are to be honest with ourselves in the demands for a total war effort."

"Would you mind answering me if I ask whether there is any political interference in your set-up?" Even his mustache bristled as he answered one word, "None."

What About Subsidies?

I wanted his say-so on subsidies. You know us people back in the country are liable to think they help the big shot, and are designed for that purpose. He put me behind the eight-ball by saying this:

"As a matter of fact, subsidies are of relatively greater help to the little fellow than the big shot you speak of. The big fellow is generally in a stronger financial position, and could weather the storms, but if subsidies were not paid to the little fellows they would be the first to fall by the wayside. Subsidies are paid and designed mainly for two purposes; one, to assure a stable cost of living, and secondly, to assure a supply of essential goods. These are handled in the interests of the entire population. They are paid in no case to increase profits, and the strictest accounting is made throughout."

That dominating figure of a man leaned over his desk as he spoke as seriously and earnestly, I thought, to me as to Mr. Halsey. Then I wanted to know if his surveys show that more compulsion is necessary or are people co-operating with the administration.

"We have the finest co-operation imaginable from the rank and file of Canadian people," he declared. "In this connection we are the envy of our neighbors and our friends across the sea. True, some selfish interests appear from time to time, but we cannot permit any deviation in the policy laid down by the government. A few others" (and a mighty few, he made it plain) "try to beat the game, but we have one standard remedy for them, and that is recourse to the courts of the land. What happens then is the responsibility of the judiciary."

"No amount of compulsion in a democratic country," Mr. Gordon pointed out, "can equal in effectiveness the co-operation of a people such as ours acting of their own volition with enlightenment and understanding."

"We Have Done Our Best"

The chairman assured me he was aware that an organization like the Wartime Prices and Trade Board, run by ordinary human beings, had made mistakes and has its shortcomings; and here he pointed a really big index finger at me. "We have done our best, all of us." He was sure that the inflation policy of the government has, at heart, the best long run interests of the wage earning class. To wreck that policy, or to make its administration impossible, is an act he considers one of self-destruction. Well, you readers out in the country can take it or leave it.

Mr. Gordon says Canada has made economic history by demonstrating that inflationary effects of war can be controlled. But he is determined as long as he has anything to do with it, that to prove it can be done is not sufficient. The policy must be seen through. To do so, in his opinion there can be no weakening on any one of five points, namely: the fiscal policy (money to you) calling for maximum taxation and borrowing; the price ceiling; salary and wage stabilization; control and rationing of supplies as found necessary, and the direction of manpower to essential uses.

Farmers and Inflation

And here I asked the question important to these articles. How about the belief among some that farmers constitute the one group who could benefit from inflation? Here is his answer: "Those who hold this belief seldom advocate inflation openly but we hear it argued that under inflation agricultural prices would rise faster than the prices of goods or supplies needed for farm consumption. No one can say positively whether this would happen or not, and I fervently hope we never have the opportunity of finding out. We do know, however, that the last time the experiment was tried, in 1914-20, everyone suffered eventually, and farmers, I guess, the most heavily of all."

The Chairman feels we are not paying a heavy price to avoid the disaster of inflation. It takes only, in his mind, teamwork and organization. And so I left him. 'Twas short as interviews go, but maybe there is a thought for you and I in it.

News of Your Army

Under a new plan now in operation many Canadians previously rejected by the Army because of physical defects may now enlist for active service. Applicants to the Army suffering from "remediable defects" will be accepted, cured by operations or treatment and receive full Army pay and allowances. The Directorate of Medical Services specifically lists hernia and varicose veins which have been responsible for many rejections to date. Additionally, applicants previously rejected because of vision or hearing are advised that standards have been revised to permit their enlistment for certain sedentary duties. Short-sighted men will be supplied with Army glasses, the announcement said. Canada, it is believed, is the first nation to adopt the policy of enlisting men into the Army before treatment.

Health of Canadians, both within and without the Armed Forces, is receiving close attention these days. Brigadier G. B. Chisholm, C.B.E., M.C., E.D., chairman of the Board and Director of Medical Services (Army), has announced a survey of the medical facilities of the Armed Forces in conjunction with medical services of the Department of Pensions and National Health. The surveys are under the direction of a committee of civilian and service physicians and are part of the national health survey being conducted by the Canadian Medical Procurement and Assignment Board.

Heading the civilian and service physicians board is Dr. A. E. Archer of Lamont, Alta., president of the Canadian Medical Association. "The separate survey of government services," Dr. Archer said, "is part of the nation-wide inventory of all health facilities and personnel to ascertain how they may best be distributed to meet the needs of the people."

Dr. George F. Stephens, president of the Canadian Hospital Council and superintendent of the Royal Victoria Hospital, Montreal, has been loaned by the hospital to assist in the survey of the services.

With a broad smile on their faces, members of the Canadian Women's Army Corps serving in the United Kingdom gave their brass an extra rub recently with the announcement that Lieut.-Col. Joan B. Kennedy, Director of the C.W.A.C., had arrived in Britain.

Accompanying Colonel Kennedy were Captain Grace L. Russell of Hamilton, Ont., former staff officer of the Canadian Girl Guides; Captain Barbara Miles, of Saint John, N.B., 1942, and Captain Madeline St. Laurent, Minister of Justice, and Mme. St. Laurent of Quebec. Captain St. Laurent was one of the first in her native city to join the corps.

Out of the FRYING PAN and into the FIRING LINE

Save ALL WASTE fats & bones

Canada needs and must have every spoonful of fat drippings, every piece of scrap fat and every bone from every kitchen in Canada. Fat makes glycerine and glycerine makes high explosives. Bones produce fat. Also glue for war industry.

Don't throw away a single drop of used fat—bacon grease, meat drippings, frying fat—every kind you use. They are urgently needed to win this war.

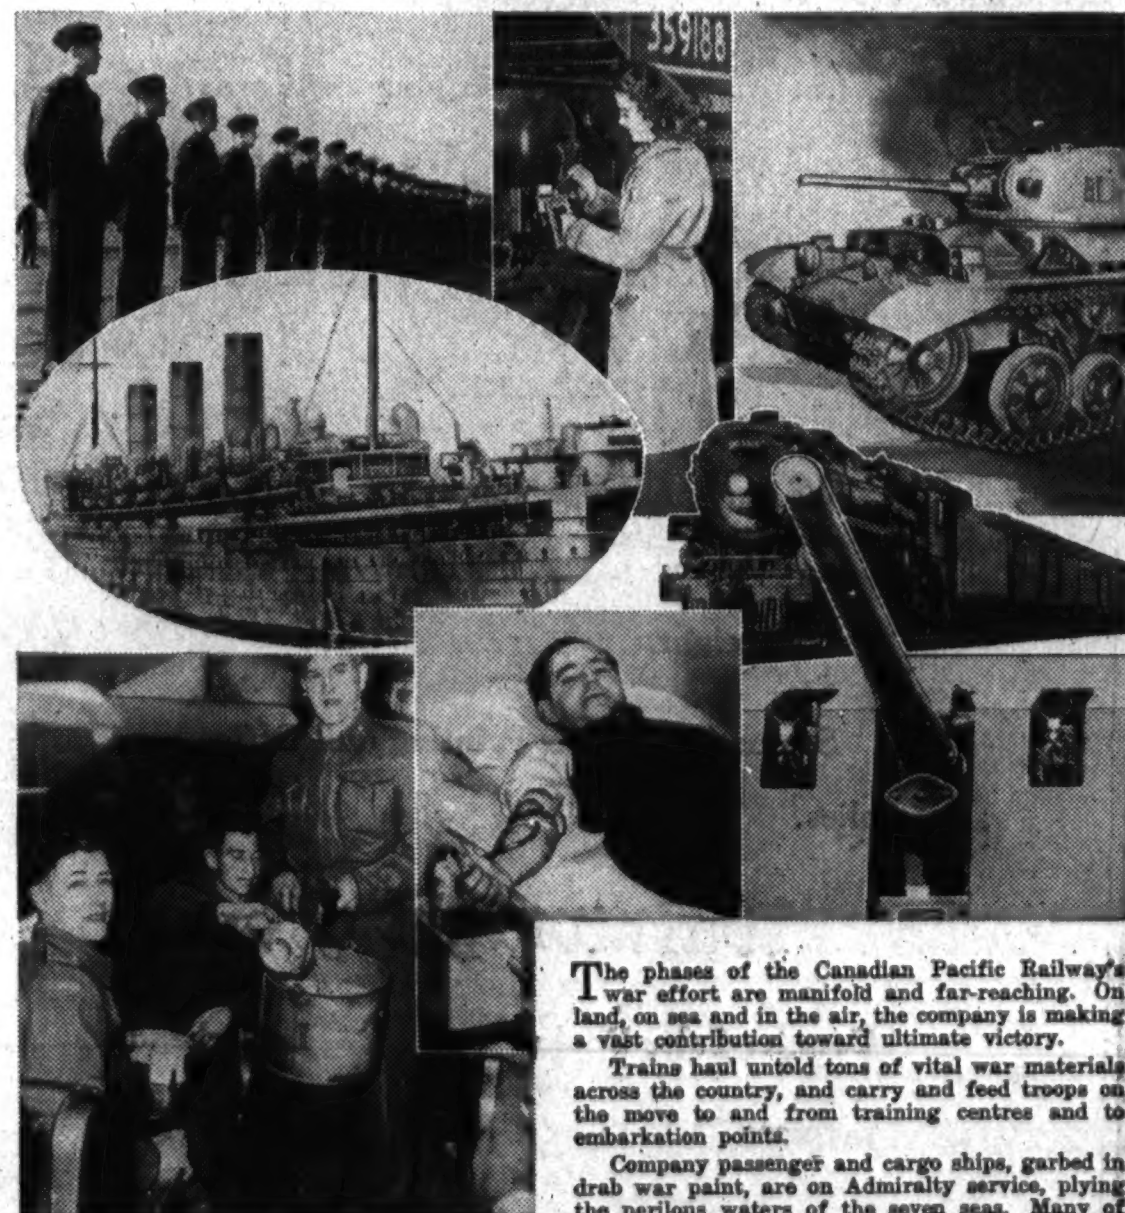

Strain all drippings through an ordinary strainer into a clean wide-mouthed can. Save your scrap fat (cooked or uncooked) and all types of bones—cooked, uncooked or dry.

When you have collected a pound or more of fat dripping, take it to your meat dealer who will pay you the established price for the dripping and the scrap fat. Or you can dispose of them through any Municipal or Salvage Committee collection system IN EFFECT in your community.

Be a munition maker right in your own kitchen. For instance, there is enough explosive power hidden in ten pounds of fat to fire 49 anti-aircraft shells. So—every day, this easy way, keep working for Victory for the duration of the war.

DEPARTMENT OF NATIONAL WAR SERVICES
NATIONAL SALVAGE DIVISION

CANADIAN PACIFIC GOES ALL OUT IN WAR.

The phases of the Canadian Pacific Railway's war effort are manifold and far-reaching. On land, on sea and in the air, the company is making a vast contribution toward ultimate victory.

Trains haul untold tons of vital war materials across the country, and carry and feed troops on the move to and from training centres and to embarkation points.

Company passenger and cargo ships, garbed in drab war paint, are on Admiralty service, plying the perilous waters of the seven seas. Many of the company's vessels have been lost by enemy action; chief casualty being the famed luxury liner, Empress of Britain.

Canadian Pacific Air Lines, besides flying passengers, freight and mail, also operates six air observer schools and one elementary flying training school in conjunction with the Royal Canadian Air Force as part of the British Commonwealth Air Training Scheme to make a major contribution to the Empire's fighting air power.

At company shops, the sinews of war are manufactured; at one big shop, Valentine tanks were made; at another, naval guns are being turned out.

More than 14,000 members of the company's peacetime personnel are now on active service and to help fill the gaps thus created at home, women workers are coming increasingly to the fore in taking men's places. They serve as car-checkers and "call-boys" and some have already invaded the round-house—a once-exclusively male territory—as engine wipers, and some even nurse ambitions to drive engines one day.

And employees are steadfastly upholding the home-front end with all-out support of Victory Loan campaigns, Red Cross drives, war relief measures, blood donations, and by the work of women's service organizations within the company.

Don't Blame US Blame -- Herr Schicklgruber Newsprint is Rationed

BY ORDER OF WARTIME PRICES AND TRADE BOARD, the paper supply for all newspapers and periodicals is limited to amount used in year ending October 31, 1942.

THIS WILL MEAN

that all subscriptions in arrears must be deleted from our list to make way for new subscribers who pay cash for new subscriptions.

THEREFORE

The Wainwright Star will reluctantly be compelled to stop all papers not paid for in advance—by April 30, 1943. If the date on your label does not read '43 or later, YOU ARE in arrears.

AMONG THE OLD TIMERS

REMINERS OF OTHER DAYS

TEN YEARS AGO

The Wainwright Dramatic Club, under the direction of R. G. Dunsmore, gave another of their splendid performances in the theatre last Friday evening when they produced the "Three Ghosts".

Mr. W. McKay has let his farm for a year to Mr. J. Baker. Mr. McKay is going to live in Edmonton, we understand.

Mrs. Washburn and Jack Telford are among the town people who took advantage of the excursion rates to the coast this week.

Mr. Jon. Caron, who has been in the hospital for the past two months suffering from pneumonia, has now recovered sufficiently to return home.

We are glad to report Mr. Ed Patterson is recovering nicely in the hospital, following an injury received when the horse he was riding fell on him, breaking a blood vessel in his leg.

Mr. J. Welch moved into his new home on fifth avenue last week and is now comfortably settled.

FIFTEEN YEARS AGO

Geo. Fletcher, son of Mrs. T. Colby of the Plaxtol district, had a very narrow escape from death by fire on Friday evening last, when the shack

in which he was sleeping caught fire, and from last reports is doing as nicely as can be expected.

The Governor-General's party with Lord and Lady Willington stopped off for a few hours in town on Thursday and were taken through the Buffalo Park, and Lady Willington visited the new hospital.

Mrs. Angus Dickson arrived from Aberdeen, Wash., U.S.A., with her baby son last week. She is staying with Mrs. C. Morrisette on the farm.

Mrs. W. Blinn is expecting to leave this week to join her husband who is employed in the Turner Valley oil-fields.

Mr. Poltras, who is now in charge at the Burns' creamery, has moved his family here from Winnipeg.

Mr. Selmar Romo, who returned last week from Alberta College, is spending his Easter vacation at home.

GREENSHIELDS

A very pleasant evening was spent at cards when the Greenshields War Service League met at the home of Mr. and Mrs. White on Wednesday evening. High score prizes went to Mrs. Geo. Reid and Mr. H. Pfluger, while the consolations went to Mrs. T. Daniels and Mr. J. Stenson. Hostesses for the evening were Mrs. H. Pfluger and Mrs. T. Daniels.

Mr. Ed. Patterson and his gang have been busy for several days sawing wood for a number of the neighbors.

Trippers to Edmonton last week include Mrs. Morrisette, Mrs. Glen Vallean and Mr. Ross Vallean.

Several from our district attended the farmers' conference held in Wainwright on Saturday.

Mr. and Mrs. T. Ware Sr. were visitors in our district last week.

HEATH

Mr. and Mrs. H. Smith are visiting relatives at Armstrong, B.C.

Oron Davis, accompanied by his mother, made a trip to Edmonton this week.

Miss G. Hough has returned after an extended visit with friends in Edmonton.

Mr. Fred Ford Jr. and Glen Jones were trippers to Edmonton over the week end.

Dilly Jones enjoyed a few days at home because of the flooding of the basement of her school at Viking.

Church services are being held in the morning again on alternate Sundays at St. Patrick's Anglican church.

Mr. Frid of Toronto was a speaker at the Heath Mission on Sunday. Mr.

Frid is associated with the World Wide Evangelization Crusade, and gave an interesting account of their work.

A group of British marines got a touch of Western soil while their train stopped at the Heath crossing on Sunday. The Touchette family enjoyed a 3-hour visit with them although the boys were disappointed at not seeing any Indians, they had an opportunity to see Canadian farms, and played a game of rugby with tin cans on the fields and gave the Touchette family many interesting accounts of their experiences on the high seas.

GERALD

Mr. G. S. Baker has returned home after spending the winter at the coast.

Mr. F. Perkins and Mr. J. Perkins accompanied by Mr. and Mrs. G. Vallean of Greenhills, journeyed to Edmonton on Wednesday last. They attended the Edmonton Spring show.

Alan Greenway left on Tuesday of last week to assume his duties with the R.C.A.F.

Mr. D. Rattray was a week end visitor in Edmonton.

Mr. L. Torgeson returned to Edmonton on Saturday.

SAVE YOUR SCRAP RUBBER

WHITE CLOUD

Mrs. L. Wallace and Mrs. H. Tondou spent a few days in the city last week.

Miss Pearl Cunningham left for Calgary last Monday. We understand she is to be employed in a Tea room.

Mrs. L. Babb returned last Friday. LAC Lawrence Blason spent a week end leave in the district recently.

Vivian Beazley has been visiting with Louise Tondou for a few days.

Miss Phillips plans to have her card party and dance Friday, 16th. Everyone welcome.

There has been a few cases of 'flu in the district.

Lester Babb has been elected to be captain of the school ball team for the coming season.

ing 1 year, Ross Hinkey SE 9-44-9-4 Grazing 1 year, George Rubenok SE 20-44-8-4 Grazing 3 years.—Carried.

Moved by Mr. Taylor that the offer of James Robinson to purchase the SW 28-44-5-4 is considered too low by Council and the Secretary be instructed to return his cheque.—Carried.

Moved by Mr. Fahner that Henry B. Arenson be advised that his offer to purchase W $\frac{1}{2}$ 22-44-3-4 is not acceptable to Council.—Carried.

Moved by Mr. Spencer that the offer of J. M. Goodall to purchase the E $\frac{1}{2}$ 2-43-1-4 is not acceptable to the Council and that he be advised to this effect.—Carried.

Moved by Mr. Archibald that the matter of the Soldiers Settlement of Canada and H. H. Pilgrim regarding the NW 24-45-5-4 be tabled until we receive a reply to the letter which the Secretary has forwarded to the Minister of Municipal Affairs.—Carried.

Moved by Mr. Taylor that the Secretary reply to Mr. E. J. Russell advising that it is the understanding of this council that he has sufficient wood on the NW 1-43-1-4 for his own use and that it was not the policy of the council to grant permits for this purpose.—Carried.

Moved by Mr. Sutherland that motion No. 110 be rescinded insofar as it effects the lease of the S $\frac{1}{2}$ 23-46-8-4 to Taylor Bros. and that this land be leased for three years to Gerald Allen. Further that Taylor Bros. be notified to this effect.—Carried.

Moved by Sutherland that all municipal property be appraised for sale purposes before any offer to purchase is accepted by this council.—Carried.

Moved by Mr. Dixon that it shall be the policy of this council to give the Lessee of any property the first chance to purchase same.—Carried.

Moved by Mr. Spencer that the request of H. P. Jackson for an increase in Old Age Pension be accepted by the council and full pension recommended to the Department.—Carried.

Moved by Mr. Archibald that Mr. N. Strachan investigate the hospital case of Mrs. Ragnhild Ramstag and that the Secretary write the Royal Alex hospital regarding this case.—Carried.

Moved by Mr. Taylor that a grant of \$25 be given to the Beulah Home, Edmonton.—Carried.

Moved by Mr. Fahner that Dr's. Wallace, Middlemass Hill and Folkins be appointed as our Medical Health officers for the year 1943.—Carried.

Moved by Mr. Sutherland that the municipality grant to the Wainwright School Division one-half the cost for immunization of all children within our area and within the Wainwright School Division.—Carried.

Moved by Mr. Fahner that the Wainwright School Division be requested to take up the matter of immunization for children with the Provost School Division and advise them that the Municipal District will pay half the cost for all children within our area and within the Provost School Division.—Carried.

Moved by Mr. Spencer that the 1942 Doctor Scheme be held in abeyance for this year, this action being taken due to conditions beyond our control.—Carried.

Moved by Mr. Sutherland that the old agreements be renewed with Dr's. Folkins and Hill and that a by-law be prepared covering the same and be presented at our next meeting.—Carried.

Moved by Mr. Spencer that the Secretary write to the provincial Mental hospital regarding mental defective patients.—Carried.

Moved by Mr. Dixon that the Reeve and Deputy Reeve be a Committee to investigate the culvert situation.—Carried.

Moved by Mr. Dixon that the report of the Agricultural Committee be accepted and a copy of the same be forwarded to Mr. Townley Smith (Continued on Page Six)

WHEN they come home—those boys who are fighting now—make them want to stay home. Make them happy and contented on the farm. They will have new ideas they want to try out. They may want to go in for new breeding stock; new crops; work out a drainage or irrigation project; do a big job of fertilizing. You are wearing out implements and equipment which cannot be replaced now. You may want to erect new buildings, or to add to present buildings. You may wish to modernize your farm with water or electricity. You may want a new motor car—new conveniences and comforts for your home. These things cost money. Save money now and invest your

savings in Victory Bonds. They will provide cash for things you will need when the war ends.

You can buy Victory Bonds for cash in a lump sum; or you can arrange to pay for them in convenient instalments over a period of six months.

Your Victory Bond salesman will be glad to tell you full particulars.

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half-yearly interest at the rate of 3% per annum until maturity.

A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest.

A Victory Bond is an asset more readily converted into cash than any other security.

NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Mr. and Mrs. Wm. Patterson of Irma, at the Wainwright municipal hospital, on April 7th, a boy.

Better to lend your spare money than lose your freedom. Buy all the Bonds you can.

Promotion of eight Alberta men serving with the Canadian Army (Active) in the province was announced by headquarters of M.D. 13 at Calgary last week, among whom was Lance-Sergeant Arthur Hockett of Irma, raised to Sergeant.

Mr. and Mrs. J. Carroll have received word by cable that their son LAC Joe Carroll has arrived safely "over there" in his air force blue.

This week sees the opening of a new office on Main Street where Kirwan Construction will do business.

The Wainwright local of the C.C.F. is calling a public meeting for Friday night of this week. It is hoped to have Mr. Elmer E. Roper of Edmonton as the chief visiting speaker, of the evening, and he will be introduced by Mr. H. B. Spencer.

Word has been received in town that Sgt. Observer W. Prosser of Wainwright, has been promoted to the rank of Pilot Officer overseas where he is serving with the R.C.A.F.

Pupils of the Wainwright Public and High schools will enjoy their Easter holidays this year from April 22nd to May 3rd.

Mrs. Kirk Snyder left Tuesday night for Trois Rivières, Quebec, to join her husband.

Mrs. W. Huntingford left hurriedly on Sunday for Moose Jaw on receipt of the news of the death of her brother-in-law, Mr. Russell H. Long, there. Mr. Long was well known here in the early days of the town's history.

The Editor is away to Stettler for a few days this week on official business connected with his office of Deputy Grand Master, I.O.O.F.

Mr. W. A. Keenan was a business visitor to the city last week.

We are sorry to report our Town Secretary, Mr. N. S. Kenny, is on the sick list this week and we wish him a speedy recovery.

Mike Stang is spending a leave in town with his family from his duties with the R.C.A.F.

Better to lend your spare money than lose your freedom. Buy all the Bonds you can.

Mrs. Donald Stuart is here from the coast on a visit with relatives.

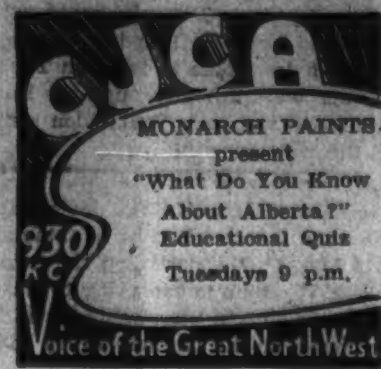

Mrs. E. L. B. McLeod left last week for a holiday with friends in Montreal.

Mrs. Geo. Arkwright from Jasper visited with friends here between trains on Friday.

Federated Co-operative Services Ltd., of which Wainwright is a member, have had one of their biggest months to date, handling 665 cattle and calves, almost a hundred sheep, and 3,700 hogs, with a gross value of almost \$160,000.00.

Mrs. Frank McLeod was a tripper to the city last week on business.

**You Roll Them Better With
OGDEN'S FINE CUT
CIGARETTE TOBACCO**

Miss Annie Wylie spent the weekend in town visiting with friends.

Mrs. J. Wilkins and daughter Ellen were trippers to the city on business last week.

J. A. Mackenzie, K.C., spent a few days in the city on business last week.

Maurice Johnson left on Sunday night's train to report back for his naval duties after a furlough spent with his parents here.

Eddie Meyers spent a few days leave in town from his naval duties in the city.

Mr. Tommy Madkins is home for a visit with his family from the coast, where he is employed.

Mr. and Mrs. Robert Reid motored to the city for a few days this week. They were accompanied by Mr. Geo. Reid.

Mr. Stirling Tory has been away from work owing to illness this week and we hope to see him around again soon.

Miss Marguerite Brunner is spending a few days in the city before taking up her new position at the Bank of Montreal.

Mr. and Mrs. Chris. Harris are here from the coast for a visit with relatives.

**NO DECISION ON
CANNING SUGAR**

MONTREAL—No fixed decision has yet been reached as to the amount of sugar to be made available for home canning purposes this year, L. B. Unwin, administrator of consumer rationing for the Prices Board said last week.

"Local ration boards are busy working on the applications for canning sugar in their possession, and when the figures for the Dominion are completed they will be considered in relation to the available sugar supply," he said.

"Although a reasonable amount of sugar will be assured for the purpose the supply may not be adequate to meet all requests in full. If this should be the case, the available supply will be allotted as fairly as possible among the applicants."

**CONTINUATION OF
M D Wainwright No 392**

Continued from page 5

of Hughenden.—Carried.

A letter of invitation to each member of the council was received from the All Farmers' Conference Committee to attend the said conference to be held in Wainwright on April 10th.

A letter of appreciation from the M.D. of Stony Plain regarding reports forwarded to them was read and ordered filed.

Letters of appreciation from each branch of the Red Cross to which a grant was given were received and ordered filed.

Letter of appreciation from the Canadian Institute for the Blind regarding grant was received and ordered filed.

Letter of appreciation from the Editor of the Irma Times regarding a grant was received and ordered filed.

Moved by Mr. Spencer that we do now adjourn, our next meeting to be held on the 13th day of May, 1943 at ten a.m.
